INDEPENDENT AUDITOR'S REPORT

Members of the Board of Trustees
Warrenville Public Library District
Warrenville, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Warrenville Public Library District as of and for the year ended June 30, 2010, which collectively comprise the Warrenville Public Library District's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the Warrenville Public Library District's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As described in Note 1d, the policy of the Warrenville Public Library District is to prepare its basic financial statements on the modified cash basis of accounting; consequently, revenues other than property taxes are recognized when received rather than when measurable and available, and expenditures/expenses are recognized when paid rather than when incurred. Accordingly, the accompanying basic financial statements are not intended to present financial position and changes in financial position in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Warrenville Public Library District, as of June 30, 2010 and the respective changes in financial position during the year then ended, on the modified cash basis of accounting.

The required supplementary information is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the statements that collectively comprise the basic financial statements taken as a whole. The combining and individual fund financial statements and schedules and the supplemental data, as listed in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Warrenville Public Library District. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We also have previously audited in accordance with auditing standards generally accepted in the United States of America, the Warrenville Public Library District as of June 30, 2009, and the related statements of Warrenville Public Library District for the year then ended (none of which is presented herein), and we expressed an unqualified opinion on those financial statements. In our opinion, the 2009 comparative information presented in the combining and individual fund financial statements and schedules is fairly stated in all material respects in relation to the basic financial statements from which it has been derived.

A handwritten signature in dark ink that reads "Schuch LLP". The signature is written in a cursive, flowing style.

WARRENVILLE PUBLIC LIBRARY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2010

As the management of the Warrenville Public Library District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the District's Financial Statements (beginning on page 3).

This discussion and analysis is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the District's financial activity, (3) identify changes in the District's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

USING THE FINANCIAL SECTION OF THIS ANNUAL REPORT

Historically, the primary focus of local government financial statements has been summarized fund type information on a current financial resource basis. This approach has been modified by Government Accounting Standards Board Statement No. 34 and the District's financial statements now present two kinds of statements, each with a different snapshot of the District's finances. The focus of the financial statements is on both the District as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the District's accountability.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The focus of the Statement of Net Assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. This statement, for the first time, combines and consolidates governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused compensated absences).

The government-wide financial statements (see pages 3-4) describe functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District reflect the District's basic services, including materials collections, reference and readers' services, programming, interlibrary loan and outreach services.

(See independent auditor's report)

**WARRENVILLE PUBLIC LIBRARY DISTRICT
WARRENVILLE, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

Fund Financial Statements

Traditional users of governmental financial statements will find the Fund Financial Statements to be more familiar. The focus of the presentation is on major funds rather than fund types. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are in one category: governmental funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains eleven individual governmental funds. Information is presented separately in the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances for the General Fund, Working Cash Fund and Special Reserve Fund, all of which are considered to be "major" funds. Data from the other eight governmental funds are combined into a single, aggregate presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual budget for each of its governmental funds. A budgetary comparison statement has been provided elsewhere in this report to demonstrate compliance with the budget. The basic governmental fund financial statements can be found on pages 5-10 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 9 through 17 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide benefits to its employees. Required supplementary information can be found on pages 18 through 21 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 22 through 38 of this report.

(See independent auditor's report)

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

GOVERNMENT-WIDE STATEMENTS

Net Assets

The following table reflects the condensed Statement of Net Assets.

**Table 1
Statement of Net Assets
Governmental Activities**

	As of June 30, 2009	As of June 30, 2010
Current and Other Assets	\$ 1,283,730	\$ 1,119,674
Capital Assets	5,214,315	5,055,492
Total Assets	6,498,045	6,175,166
Long-Term Liabilities	0	0
Other Liabilities	517,830	522,721
Total Liabilities	517,830	522,721
Net Assets		
Invested in Capital Assets, Net of Debt	5,214,315	5,055,492
Restricted	258,904	258,318
Unrestricted	506,996	338,635
Total Net Assets	\$ 5,980,215	\$ 5,652,445

The District's combined net assets decreased from \$5,980,215 to 5,652,445 during 2010. The primary cause of this increase was the budgeted expenditure of reserve funds.

For more detailed information, see the Statement of Net Assets on page 3.

*Expenses do not include interest paid on outstanding debt certificates
(\$56,400 in 2008/2009)

There are seven basic impacts on revenues and expenses as reflected below:

(See independent auditor's report)

**WARRENVILLE PUBLIC LIBRARY DISTRICT
WARRENVILLE, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

Normal Impacts

Revenues

Effect of Tax Cap. The 0.6% increase in the District's total tax extension (to \$1,094,108) was down slightly from last year's increase of 4.6% (to \$1,087,532). With relatively little new construction and a low CPI, the tax extension increases have remained below 5% over the last five years. The District's tax rate continues to be less than the voter-approved rate due to the tax cap. The tax cap continues to affect the District's ability to levy the full amounts required for pension obligations. In the next 1–2 years, the District can expect deficit fund balances in the general fund and several non-major funds until such time that it is able to capture the full levy on new growth with the closeout of the Cantera TIF. Because this situation is expected to be alleviated in the near future, the District will carry the deficit fund balance from year-to-year and rely upon the positive balances in its Working Cash and Special Reserve Funds to offset the deficit. The District chooses this option over shifting the non-major fund expenses to the General Fund which would adversely affect the availability of funds for normal operating costs. The library will also rely upon the Special Reserve Fund according to an adopted plan which outlines the use of these funds for library materials, automation, and building maintenance and repairs.

DuPage County extended a total tax rate of .2701, an increase of 1.6% from the previous .2659 (which was a decrease of 1.2% from the previous tax year). The .2205 corporate fund rate was an increase from the previous year's corporate rate of .2180, demonstrating the effect of the declining EAV of taxable property located within the District. As noted in last year's analysis, the tax rate will increase if taxable property is assessed at lower levels. Declining reassessments will not have a significant impact on the dollar amount of taxes extended.

Changing patterns in intergovernmental and grant revenue (both recurring and non-recurring.) Certain recurring revenues (City developer fees, intergovernmental income, state per capita grant, etc.) may experience significant changes periodically while non-recurring or one-time grants, including gifts from the Warrenville Library Foundation, are less predictable and often distort their impact on year-to-year comparisons.

Market impacts on investment income. The District's investment portfolio is managed using a similar average maturity to most other governments. Market conditions may cause investment income to fluctuate. Most funds are invested in the Illinois Funds which offers both liquidity and safety, which are requisites of the District's investment policy. To maximize investment income, the District invested portions of its working case and special reserve funds in certificates of deposit at local financial institutions with competitive rates.

Expenses

Introduction of new programs. Within functional expense categories, individual programs may be added or deleted in order to meet the changing needs of the District.

Changes in authorized personnel. Changes in service demand may cause the District to increase or decrease staffing levels. Personnel costs are the District's most significant operating costs.

Salary & Benefits increases (annual adjustments and merit). The ability to attract and retain quality personnel requires the District to strive to have competitive salary ranges and pay practices. Due to anticipated flat income, only cost of living raises were awarded in FY10.

(See independent auditor's report)

**WARRENVILLE PUBLIC LIBRARY DISTRICT
WARRENVILLE, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

Inflation. Some of the District's functions and services may experience unusual commodity specific increases due to inflation. One example of this is increased shipping costs passed on to the District by its main book vendor.

Current Year Impacts

Revenues

For the fiscal year ended June 30, 2010, revenues totaled \$1,165,733, up 2.6% from last year's \$1,135,773. Property taxes, the District's largest single revenue source, accounted for 93.1% of total revenue. The 2009 assessed valuation of the district decreased 1% to \$405,075,215 from \$409,000,497 in 2008 (which was up 5.81% over the 2007 assessed valuation).

Charges for services, which include fines, photocopies, meeting room rental, non-resident cards and lost materials fees, represent 2.9% of total income. Grants and donations account for 3.2%. Investment income accounted for 0.8% of total income, a 51% decrease from last year due to sharply declining interest rates and declining fund balances.

The District received income from several grants and gifts, including a \$15,300 City of Warrenville Hotel/Motel Tax grant and a \$1,300 grant from Target. The Library was awarded an FY09 Per Capita Grant from the State of Illinois, but did not receive those funds before June 30, 2010. The Library received its FY08 Per Capita Grant (\$16,100) in FY10. The Warrenville Library Foundation contributed nearly \$4,000 to the library for programs and services.

Expenses

The District's expenses (excluding interest) were \$1,493,503 in 2010 up 1.6% from \$1,469,384 in 2009. As required by GASB Statement No. 34, the expense totals include depreciation expense of \$165,353 for governmental activities.

Together, salaries and benefits accounted for 51.7% of total expenditures, as compared to last year's 49%. Expenditures for materials and electronic resources were budgeted at the same levels as 2009, but actual expenditures decreased slightly. Automation expenditures were up slightly and included the purchase of replacement computers for staff workstations.

(See independent auditor's report)

**WARRENVILLE PUBLIC LIBRARY DISTRICT
WARRENVILLE, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the Warrenville Public Library District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As of June 30, 2010, the governmental funds (as presented on the balance sheet on pages 5-6) had a combined fund balance of \$596,953. This reflects a combined decrease of \$168,947 over the prior year, which is attributable primarily to the budgeted expenditure of Special Reserve Funds.

No supplemental appropriations were adopted.

**Table 3
General Fund Budgetary Highlights
For the Fiscal Year Ended June 30, 2010**

	Original Appropriation	Actual 2010	Actual 2009

WARRENVILLE PUBLIC LIBRARY DISTRICT
WARRENVILLE, ILLINOIS

NOTES TO FINANCIAL STATEMENTS

June 30, 2010

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Warrenville Public Library District (the District), have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)) except as described in Note 1d. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and reporting principles. The more significant of the accounting policies are described below.

a. Reporting Entity

The District is a body corporate and politic established under Illinois Compiled Statutes (ILCS) governed by an elected Board of Trustees. These financial statements present the District's reporting entity as required by generally accepted accounting principles. The District is considered to be a primary government since the board is separately elected and the District is fiscally independent.

b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into the following categories: governmental and fiduciary.

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of capital assets (capital projects funds), the servicing of general long-term debt (debt service funds) and management of funds held in trust that can be used for library services (permanent fund). The general fund is used to account for all activities of the District not accounted for in some other fund. The District has no fiduciary funds.

WARRENVILLE PUBLIC LIBRARY DISTRICT
WARRENVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, if any, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and standard revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The Working Cash Fund, a permanent fund, is used to account for monies used to provide temporary loans to operating funds during periods of diminished revenue.

The Special Reserve Fund is used to account for capital improvements at the District.

WARRENVILLE PUBLIC LIBRARY DISTRICT
 WARRENVILLE, ILLINOIS
 NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and using the modified cash basis of accounting. Revenues are recorded at the time of receipt by the District except that the property tax revenues collected before the year they were levied to finance are recorded as deferred revenue until the beginning of the applicable year. They are recognized as revenue in the new year. Expenses are recorded when the funds are disbursed. Depreciation of capital assets has also been shown on the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified cash basis of accounting. Revenues are recorded at the time of receipt by the District except that the property tax revenues collected before the year they were levied to finance are recorded as deferred revenue until the beginning of the applicable year. They are recognized as revenue in the succeeding year. Expenditures are recorded when the funds are disbursed.

e. Cash and Investments

Investments with a maturity of greater than one year, at time of purchase, if any, are stated at fair value. Nonnegotiable certificates of deposit are stated at cost.

f. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value or service capacity of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and building improvements	40
Furniture and equipment	5-10

WARRENVILLE PUBLIC LIBRARY DISTRICT
WARRENVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Principal payments on long-term debt are recorded as expenditures in the fund financial statements but as a reduction of a liability on the government-wide statements.

h. Fund Balance/Net Assets

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance, if any, represent tentative management plans that are subject to change. In the government-wide financial statements, restricted net assets are legally restricted by outside parties for a specific purpose. None of the District's restricted net assets are restricted as a result of enabling legislation adopted by the District. Invested in capital assets, net of related debt is the book value of the capital assets less than the principal balance of any long-term debt issued to construct or acquire the capital assets.

2. DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the statement of net assets as "cash and investments."

The District's investment policy allows the District to make deposits/invest in accordance with Illinois Compiled Statutes, namely in interest-bearing savings accounts, interest-bearing certificates of deposit, interest-bearing time deposits or any other investment constituting direct obligations of any institution as defined by the Illinois Banking Act and is insured by the Federal Depository Insurance Corporation and Illinois Funds. Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the state to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Funds' share price, the price for which the investment could be sold.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio.

WARRENVILLE PUBLIC LIBRARY DISTRICT
 WARRENVILLE, ILLINOIS
 NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

a. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. To guard against credit risk for deposits with financial institutions, the District's investment policy requires that deposits with financial institutions in excess of FDIC be collateralized with collateral of at least 110% of the deposits at institution held by an independent third party in the name of the District.

b. Investments

As of June 30, 2010, the District had the following investments and maturities:

	<u>Fair Value</u>	<u>Maturity</u>
Illinois Funds	<u>\$ 901,988</u>	On Demand

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in the possession of an outside party. To limit its exposure, the District's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the District's agent separate from where the investment was purchased. Illinois Funds is not subject to custodial credit risk.

In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds based on the time line for the funds use. Unless matched to a specific cash flow, the District will not directly invest in certificates of deposit with a maturity of greater than three years from the date of purchase.

WARRENVILLE PUBLIC LIBRARY DISTRICT
 WARRENVILLE, ILLINOIS
 NOTES TO FINANCIAL STATEMENTS (Continued)

3. CAPITAL ASSETS

Capital asset activity, resulting from modified cash transactions, for the year ended June 30, 2010 was as follows:

	Balances July 1	Increases	Decreases	Balances June 30
GOVERNMENTAL ACTIVITIES				
Capital assets not being depreciated				
Land	\$ 440,500	\$ -	\$ -	\$ 440,500

Total capital assets being depreciated, net	4,720,015	(158,823)	-	4,561,192
GOVERNMENTAL ACTIVITIES				
CAPITAL ASSETS, NET	\$ 5,214,315	\$ (158,823)	\$ -	\$ 5,055,492

Depreciation expense was charged to functions of the primary government as follows:

GOVERNMENTAL ACTIVITIES

Culture and recreation \$ 165,353

4. PROPERTY TAX CALENDAR

The following information gives significant dates on the property tax calendar of the government:

- The property tax lien date is January 1.
- The annual tax levy ordinance for 2009 was passed November 18, 2009.
- Property taxes are due to the County Collector in two installments, June 1 and September 1.
- Property taxes for 2009 are normally received monthly beginning in June and generally ending by November 2010.

5. RISK MANAGEMENT

The District is exposed to various risks of loss including, but not limited to, general liability, property casualty, workers' compensation, illnesses of employees and public officials' liability. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage in the fiscal year or prior two fiscal years.

6. RETIREMENT FUND COMMITMENTS

Illinois Municipal Retirement Fund

The District's defined benefit pension plan (the Plan), Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the Plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the Plan as a whole but not by individual employer. That report may be obtained by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Pension benefits vest after eight years of service. Participating members who retire at or after age 60 with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years and 2.00% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Employees participating in the IMRF are required to contribute 4.50% of their annual covered salary. The member rate is established by state statute. The District is required to contribute at an actuarially determined rate. The employer contribution for calendar year 2009 was 11.06% of payroll. The employer contribution requirements are established and may be amended by the IMRF Board of Trustees.

WARRENVILLE PUBLIC LIBRARY DISTRICT
 WARRENVILLE, ILLINOIS
 NOTES TO FINANCIAL STATEMENTS (Continued)

6. RETIREMENT FUND COMMITMENTS (Continued)

Illinois Municipal Retirement Fund (Continued)

For the year ended June 30, 2010, the District's annual pension cost of \$57,140 was equal to the District's required and actual contributions. The required contribution was determined as part of the December 31, 2007 actuarial valuation using the entry-age actuarial cost method. The actuarial assumptions included (a) 7.50% investment rate of return (net of administrative expenses), (b) projected salary increases ranging from 0.4% to 10.0% per year and (c) 3% per year cost-of-living adjustments. Both (a) and (b) included an inflation component of 4.00%. The actuarial value of IMRF assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. IMRF's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at the December 31, 2007 valuation was 23 years.

Employer annual pension cost (APC), actual contributions and the net pension obligation (NPO) are as follows. The NPO is the cumulative difference between the ARC and the contributions actually made.

For Fiscal Year	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation (NPO)
2008	\$ 46,820	100.0%	\$ -
2009	50,633	100.0%	-
2010	57,140	100.0%	-

The funded status of the plan as of December 31, 2009, based on the actuarial valuation is the same actuarial assumptions used to determine the employer annual pension costs of the plan as disclosed above.

Actuarial accrued liability (AAL)	\$ 1,225,556
Actuarial value of plan assets	825,001
Unfunded actuarial accrued liability (UAAL)	400,555
Funded ratio (actuarial value of plan assets/AAL)	67.32%
Covered payroll (active plan members)	\$ 469,306
UAAL as a percentage of covered payroll	85.35%

See the schedule of funding progress in the required supplementary information immediately following the notes to financial statements for additional information related to the funded status of the plan.

7. OTHER POSTEMPLOYMENT BENEFITS

The District has evaluated its potential other postemployment benefits liability. The District provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with Illinois statutes, which creates an implicit subsidy of retiree health insurance. Former employees who choose to retain their rights to health insurance through the District are required to pay 100% of the current premium. However, no former employees have chosen to stay in the District's health insurance plan. Therefore, there has been 0% utilization and, therefore, no implicit subsidy to calculate in accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Additionally, the District has no former employees for which the District was providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. Therefore, the District has not recorded any postemployment benefit liability as of June 30, 2010.

8. DEFICIT FUND BALANCES

At June 30, 2010, the General Fund, Audit Fund and Building, Equipment and Maintenance Fund had a deficit fund balance of \$17,788, \$746 and \$4,380, respectively.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

June 30, 2010

BUDGETS

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Board of Trustees prepares a Combined Annual Budget and Appropriation Ordinance for all funds.
2. Budget hearings are conducted.
3. The budget is legally enacted through passage of an ordinance.
4. The budget may be amended by the Board of Trustees. No supplemental appropriations were adopted by the Board of Trustees in the current fiscal year.
5. Budgets are adopted on the modified cash basis.
6. The level of control (level at which expenditures/expenses may not exceed appropriations) is the fund level. All appropriations lapse at year end.
