

WARRENVILLE LIBRARY MOBILE MENU

2-WEEK CHECKOUT TO WARRENVILLE CARDHOLDERS

[Mobile Hotspot](#)

Free wireless internet access on Sprint's 4G LTE network for up to 10 devices

[Kindle e-reader or Kindle Fire tablet](#)

Library Kindles are pre-loaded with popular and award-winning content for all ages, plus assigned reading for Battle of the Books, high school freshmen and AP/Accelerated English.

[USB Battery Pack](#)

Charges your mobile devices while traveling in airplanes, back seats or during outdoor activities where power isn't available. Recharges two devices simultaneously, up to 6 times.

[5-port USB Travel Charger](#)

Charges up to five devices simultaneously from a single wall outlet. Power sensing technology automatically delivers the right amount of power for each device.

[Car Power Inverter](#)

Provides 2 AC outlets and 2 USB charging ports to power laptops, portable DVD players, TVs, lights, cell phones, battery chargers, and other electronic devices.

[Charging Cable Kit](#)

Our convenient charging kit includes a micro USB, an Apple 30-pin and an Apple Lightning cable, plus a dual-port car charger and a dual-port wall charger.

[Memory Card Reader](#) Easily transfer files between a computer and various devices with this memory card reader, compatible with up to twelve different memory card formats!

[Pico Projector](#)

Present, entertain, or display an image up to 50" diagonal! These palm-sized projectors offer multiple inputs, and accept a variety of screen content and file formats.

[Pico Projection Screen](#)

Improve the quality of your Pico presentation. This 30" tabletop projection screen adds a professional touch wherever you go and comes in a convenient carry bag.

[Bluetooth Speaker](#)

Enhance your presentation, or just enjoy your favorite playlist. Pair this rechargeable speaker with your favorite Bluetooth music player, or direct connect to any audio device.

[Bluetooth Keyboard](#)

Enjoy the convenience of a full keyboard paired with your Bluetooth phone, tablet or laptop.

[WebCam](#)

Keep in touch with loved ones via Skype or Hangouts, or become a YouTube star with a Windows-compatible USB webcam.

[Selfie Stick](#)

Enhance your cell phone selfies with an extendable, adjustable, remote shutter monopod.

[3-in-1 Lens Kit](#)

Take fisheye, wide angle and macro photos on your phone or tablet with this detachable lens kit.

[Video Camera](#)

Capture up to 1 hour of HD video with a Flip video camera, then transfer directly to computer with the built-in USB. Requires 2 AA batteries; not included.

[USB Microphone](#)

Connects easily to your computer to record audio, control voice recognition software, and improve audio quality while video chatting or voice calling with VoIP.

[Collapsible "Green" Screen](#)

This reversible, collapsible Chromakey green screen can be used as a simple backdrop or used with a digital camera and software to make custom backgrounds and special effects.

[Photography Tent/Light Box](#)

Sell online more effectively with high quality photos taken in a portable, collapsible photo tent. Four color backgrounds are included; lights are available separately.

[Tabletop Photography Lights](#)

Create professional quality photos or videos with our tabletop lighting kit featuring 30W 5000K daylight balance CFL bulbs.

[Portable Hard Drive](#) Easily transfer files from an old computer to a new one, save and organize your multimedia project, or transport large files with a 120GB solid state drive.

[Portable DVD Drive](#) The USB 2.0 writeable DVD drive may be used at home or on the Library's internet access computers.

[Portable Floppy Drive](#)

See what's on those old diskettes! Connect to a desktop or laptop computer via USB, then view or transfer old files.

[Power Usage Monitor](#) *(A gift from the City of Warrentville's Environmental Advisory Commission.)*

Test the quality of the power in your home, see how much electricity your appliances and electronics are using, then forecast consumption and costs.

Slide/Film to Digital Converter Preserve memories by digitizing old slides or film negatives. Display images on a TV, save to a memory card* or transfer directly to computer via USB cable. **Available for purchase at the Information Desk*

Analog to Digital Video Converter

Convert video tapes to digital files and transfer to Windows or Mac computer. Requires computer and VHS player or camcorder; not included.

Streaming Video Player

Watch movies and TV series from our VUDU collection or access our hand-picked selection of free channels. Requires wireless internet and 2 AA batteries, not included.
